		DS5CK-KD-3RN21	1 YEAR TERM, DOWNLOAD
		DS5CK-KT-3RN20	PERPETUAL
		DS5CK-KT-3RN21	PERPETUAL

Glossary:

FLOATING LICENSE – the license (of many seats) is installed on a network server. When different users whose computers are connected to the network server use DS-5, the program requests permission of the server to use the software (check-out a seat) and permission is granted as long as there is a seat available on the server

NODE LOCK LICENSE – the license is locked to a particular machine on which the tool is installed
