

The Dell 1350cnw colour printer

Big on colour — small on compromise — world's smallest A4 colour laser-class network printer*

The 1350cnw is designed for small and medium sized businesses and small workgroups looking for high value, high quality colour print capabilities with network and wireless connectivity features. It delivers the next evolution in LED printing technology with superior print quality, lower energy consumption, and maintenance-free performance over conventional laser printers in the same class.

The Dell 1350cnw performs efficiently at speeds of up to 15 pages per minute (ppm)¹ mono and 12 pages per minute (ppm) colour (A4) (actual print speed will vary with use) and can reliably produce high quality printing at a maximum monthly duty cycle of up to 30 000 pages.

Ultra compact and efficient, the Dell 1350cnw is simple and easy to operate and offers the best value in colour printing with networking and wireless capabilities for your organization.

Dell 1350cnw colour printer

Big on colour—small on compromise: Dell 1350cnw product benefits

Superb print quality with Dell LED printing technology and Colour by Dell

With the Dell 1350cnw organizations can enjoy high-quality colour printing with better colour reproduction and sharp, crisp text quality over conventional laser and LED printers in the same class. The breakthrough Dell LED printing technology represents a significant technological advancement over conventional LED printers, with smaller and intelligent self-scanning print head design and greater accuracy, control and uniformity of light emission for image transfer. Plus, Colour by Dell, a total print quality solution, allows users to experience better colour reproduction, sharp and crisp text, and eye-catching photo printouts with natural skin tones.

Efficiency without compromise

The Dell 1350cnw, with innovative LED printing technology, was purposely engineered to be compact for greater space efficiency, energy savings, and operational efficiency over conventional laser printers in the same class. You'll enjoy lasting and reliable performance with fewer mechanical parts compared to laser printers and conventional LED printers. And you'll minimize downtime and save money with the maintenance-free Dell 1350cnw which comes with a lifetime drum and fuser unit and requires only four toner consumables. Finally, because of Dell's breakthrough LED printing technology, the Dell 1350cnw consumes less power during printing mode than other similar printers on the market.

Great performance—great functionality

There's no need to wait for your print job with the Dell 1350cnw which features print speeds of up to 15 pages per minute (ppm) A4 in mono and up to 12 pages per minute (ppm) colour (actual print speed will vary with use). And with a maximum monthly duty cycle of up to 30 000 pages, the Dell 1350cnw can handle your organization's colour printing jobs well.

Solid warranty and service

Should your Dell 1350cnw need service, Dell's standard 1 Year Next Business Day Service after Remote Diagnosis³ can help get you back up and running again promptly. Protect your investment even longer with an optional Limited Hardware Warranty³ extension which is available during the term of the warranty for up to four years.

Environmentally-conscious design—reduce, recycle, renew

According to the US Environmental Protection Agency, Energy Star[®]-qualified products are up to 25% more power efficient on average than conventional models.⁴ The Dell 1350cnw has been designed to help reduce the use of materials and hazardous materials. Dell printer users can return toner cartridges to Dell for recycling at no additional cost (applies to major western European countries only). Dell also helps customers dispose of old printers and other computer equipment in an environmentally-conscious manner.
