

Spray Mount: Ideal for artwork and mounting most common materials. Allows for repositioning within a few minutes before final bonding. Does not turn brittle or yellow over time.

Photo Mount: For all work involving the mounting of photos, illustrations or prints. You have time to reposition before complete bonding occurs. Does not bleed through.

Display Mount: Ideal for exhibition and display work. The fastest drying spray that 3M offers. Provides permanent bonding for many porous and non-porous materials, such as fabrics, heavy cardboard, wood and foam.

- All cans are 400ml capacity
