

Item # 26700-203, Auto-Focus Mighty Scope

Auto-Focus Mighty Scope

Stay focused in on the task at hand.

Equipped with a two megapixel CMOS sensor, four bright white intensity controllable LED lights, and housed in a ergonomically design case, the Auto-Focus Mighty Scope is a powerful compact inspection tool.

The Auto-Focus Mighty Scope features three convenient options to quickly bring the sample into view. Continuous focusing mode keeps the specimen or product is sharp view when the working distance and magnification needs to be adjusted. Choose the single focus mode for a stationary position. Focus once and analyze multiple times. The manual focus mode gives complete control to the operator.

It is a great tool for the science, engineering, quality control, inspection and repair and hobbies and collecting fields. Includes a stand to hold the scope.
