

# UTP 2020 Series High Density Panel

## Features & Benefits

- ✘ Manufactured in UK
- ✘ Easy to install
- ✘ Simple cable management
- ✘ Suitable for gigabit Ethernet Applications
- ✘ Adjustable recessed mounting version available

The Connectix 2020 series panel is an alternative to our Enhanced Category 5 high density patch panel. It offers the same Enhanced Category 5 performance as our standard HD Panel but has been designed to present the cable termination IDCs horizontally on a tray at the rear of the panel, making termination and cable management easier.

Enhanced Category 5 high density panels achieve optimum transmission performance by incorporating highest quality components and innovative on-board compensation techniques. The front of the panel features write on designation labels, which also provide an ideal surface for application of custom printed labels.

This panel offers extended PowerSum characteristics and exceeds the TIA/EIA-568-B Specifications. When combined with Enhanced Category 5 Modules and UTP cable the link will perform well in excess of the Enhanced Category 5 Specification.

## Ordering Information

Product Description	Part Number
2020 Enhanced Category 5 Series High Density Panel	009-001-001-01
2020 Series High Density Panel (Adjustable)	009-001-001-02

## Specification

Width	19" (483mm)
Depth	95mm
Height	1u (44mm)
Fixing Centres	467mm
Material	Mild steel sheet CR4 to BSEN 10130-1999 DC01
Finish	Matt black polyester paint
Socket Labels	Write-on silk screen on panel front
Cable Management	Improved cabling facility with easy to use cable tie positions for left and right cable entry
IDC Labling	Colour coded to T568B
IDC Blocks	Industry standard 4 way IDC's
Conforms to	TIA/EIA-568-B Enhanced Category 5 specification
