Weller®

SPI 27Bestellnummer : **T0056402199**

Unregulated Main Iron

Line Voltage Soldering Iron 25 W, 230 V, Unregulated

Robust heating elements of special steel between natural mica-leaves, embedded in cast ceramics and first-class material make the Weller SPI irons outstanding in technology and life-time. The SPI irons come with plated and oxidation prevented Weller "Longlife" tips.

Technical Data

Voltage:	230 V AC
Power:	25 W
Heat-up time:	ca. 180s
Temperature:	410°C
Tip type:	SPI
