

Data Sheet WD1000 HPT UK/EU Cordset

Weller part no.	T0053416399
Description	Single channel solder station with high power soldering iron
Type	WD1000 HPT
Comprises	WD1M power unit with high speed regulation WP120 high power soldering iron with XTB solder tip WDH 10T safety rest with stop / go function
Power rating	Soldering iron 120W / 24V 50Hz Power unit 160W
Supply required	230V 50Hz
Mains lead	fitted with UK plug
Temperature range	50C – 450C
Temperature tolerance	+/- 2% of max temperature
Temperature stability	+ /- 6C
Temperature pre- sets	3 (selectable)
Temperature display	LCD digital
Temperature setting	up / down push buttons
Safety Class	1 (power unit), 3 soldering iron
Features	temp lock / temp set back/ temp off set/temp window/auto off/ tool recognition
Compliance	IPC J – STD – 001D
Can be used with WMRP soldering iron WMRT thermal tweezer and all Silver Line tools up to 150 W rating	
ESD safe
