

Coaxial Cable Stripper

Description:

A superb new tool for stripping coax cable. Simply insert the cable into the tool, swing the tool two or three times round the cable, and presto! The outer insulation is stripped, the braid is exposed and cut to the correct length and the inner insulation is cut to reveal the correct length of central conductor. The job is done in a quarter of the time taken by conventional tools. The stripper can be adjusted to strip all coax cables with a diameter between 4 and 7mm.

Part Number Table

Description	Part Number
Coax Cable Stripper	D03031
