Soldering Iron Magnastat

Magnastat Soldering Iron 30/40 W, 12/14 V, with Battery Clamps and Soldering Tip LT M (370°C)

The Weller Magnastat system operates through a ferro-magnetic sensing device which changes its characteristics when specific temperatures are reached. Working temperature selection is achieved by simply changing the “temperature sensing“ soldering tip. These tips are available in 260°C, 310°C, 370°C, 425°C and 480°C versions.

Technical Data

Voltage:	12 V
Power rating:	35 W
Control:	2-point control with temperature sensor using Curie effect
Switching temperatures:	5 = 260°C 6 = 310°C 7 = 370°C 8 = 425°C
Tip type:	PT , LT
