

Micro-USB Cable with LED Charging Light - M/M - 1m (3ft)

StarTech ID: USBAUBL1M

Now you can know when your mobile devices are done charging without having to access them to find out. This Micro-USB charging cable features an LED indicator that lets you know when your mobile devices are fully charged.

Stop guessing if your device is done charging

The charge cable provides a visual that lets you know when your mobile device is charging, so you don't have to doubt whether or not the cable is plugged in correctly.

The LED indicator at the top of the Micro-USB connector lights up when the cable is connected to your device as well as a USB charger or USB port. A red light indicates that your device is still charging and a green light indicates that your device is fully charged.

Keep as a spare cable while traveling

Replace the cable that came with your device or keep one as a spare in your laptop bag, backpack or other carrying case.

Connect with ease

You don't have to remove the case from your phone or tablet every time you charge or sync your device. The cable offers a slim Micro-USB connector molding that plugs into your device even while it's inside a protective case.

The USBAUBL1M is backed by StarTech.com's 2-year warranty for guaranteed reliability.

Applications

- Charge and sync your Micro-USB equipped mobile digital devices
- Replace the cable that came with your device or keep one as a spare while traveling

Features

- Know when your Micro-USB phone or tablet is fully charged, with a red LED that indicates your device is charging and a green LED light that indicates your device is fully charged
- Guaranteed reliability with our 2-year warranty
