

AT163 Thermosetting Duct Tape

- Water and salt water resistant - ideal for use in marine applications
- Thermosetting adhesive - adhesive bakes onto applied surface above +110°C
- Clean peel up to +110°C
- Writable surface
- Very good abrasion resistance
- Gloss finish

Applications

- Joint sealing on metal or plastic ducting
- Sealing smooth and fibrous faced insulation materials
- Umbilical cord wrapping for deep sea divers

Thickness	0.30mm
Breaking load	80 N/cm
Elongation	8%
Adhesion to steel	4.2 N/cm
Adhesion to self	3.0 N/cm
Service temp	-50°C to +110°C
