? **Finding the correct label height for your Self Laminating labels.**

If you know your wire diameter or wire circumference, you can easily determine the correct label height by using the formula below.

Step 1:
$$\frac{\text{wire dia.} \times 3.147 (\text{pi})}{\text{wire circumference}}$$

Step 2:
$$\frac{\text{wire circumference} \times 1.5}{\text{total label length}}$$

(Multiplying by 1.5 allows the label to wrap 1.5 times around the wire)

See all TLS2200® and PC Link™ Ribbon parts on page 323.

* Yellow media adaptor required for use in the BMP®71 printer. See page 324.

*Approx. wire gauge based on AWG for THHN wire.
