

CONFIDENTIAL

14th June 2016

As a valued customer, we wanted to notify you that Molex will relocate manufacturing of products currently being produced at our Dalian, China plant. This reflects our continuous evaluation of our manufacturing footprint.

Production will be transferred from Dalian to our operations in Shanghai, Vietnam and Malaysia. These are modern facilities committed to operational excellence, with certifications that include ISO 14001 and ISO/TS16949.

We will work with you to help meet your demand requirements throughout the transition period, which we expect will take four to six months. We are committed to continuing to meet your needs throughout the transition process. Our goal is to make this transition as seamless as possible for you. A Molex sales representative will work with you to provide necessary documentation to support the move.

Thank you.

Aldo Lopez
SVP & President Sales
