

EXIS +

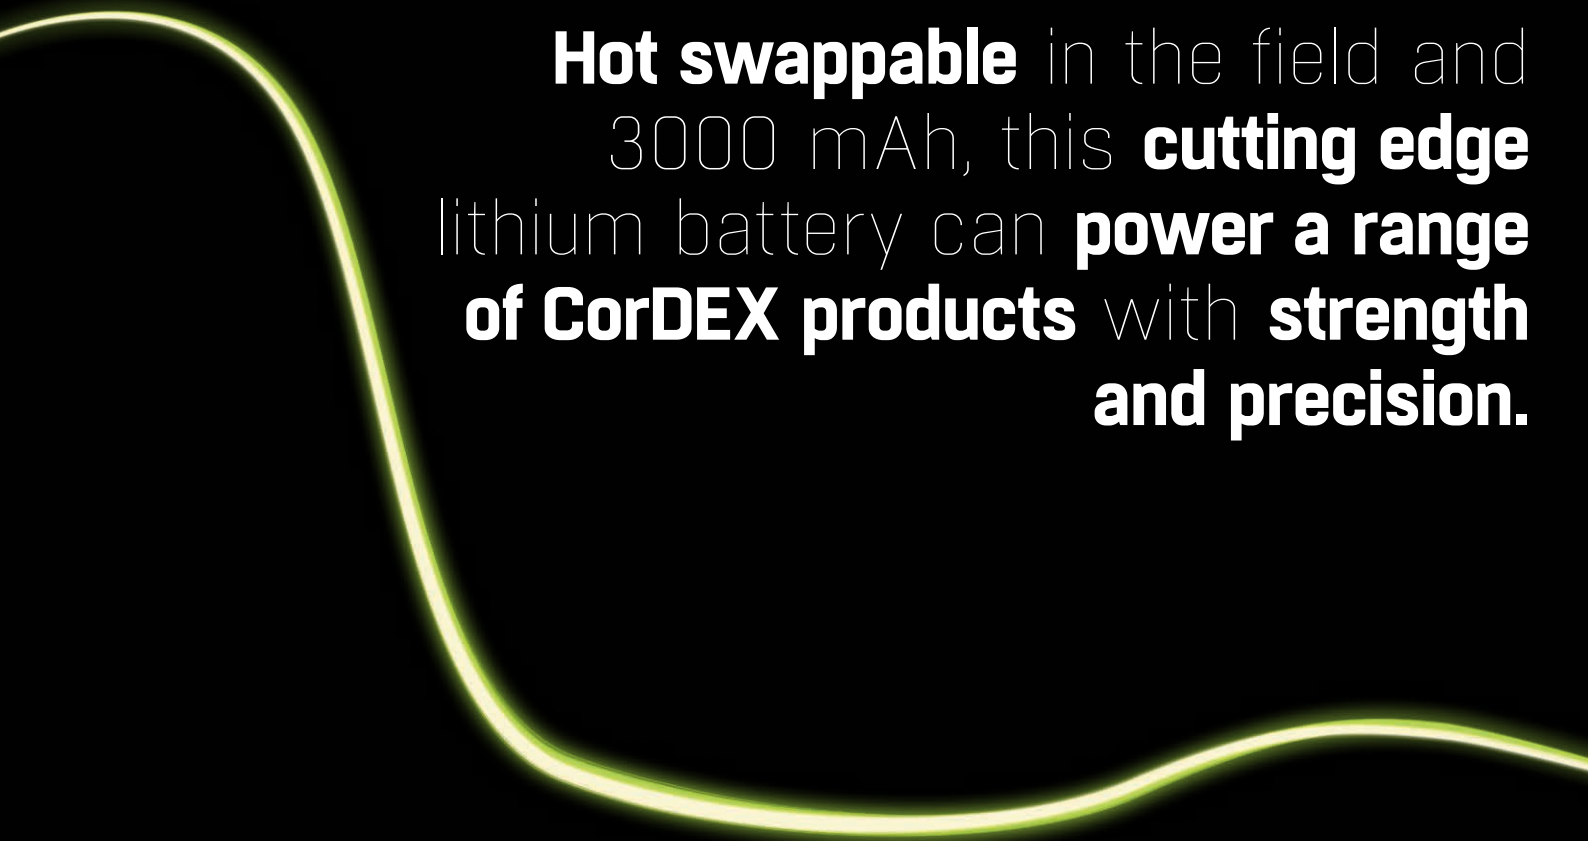

The world's first
interchangeable and
intrinsically safe battery.

EnergyEVOLVED

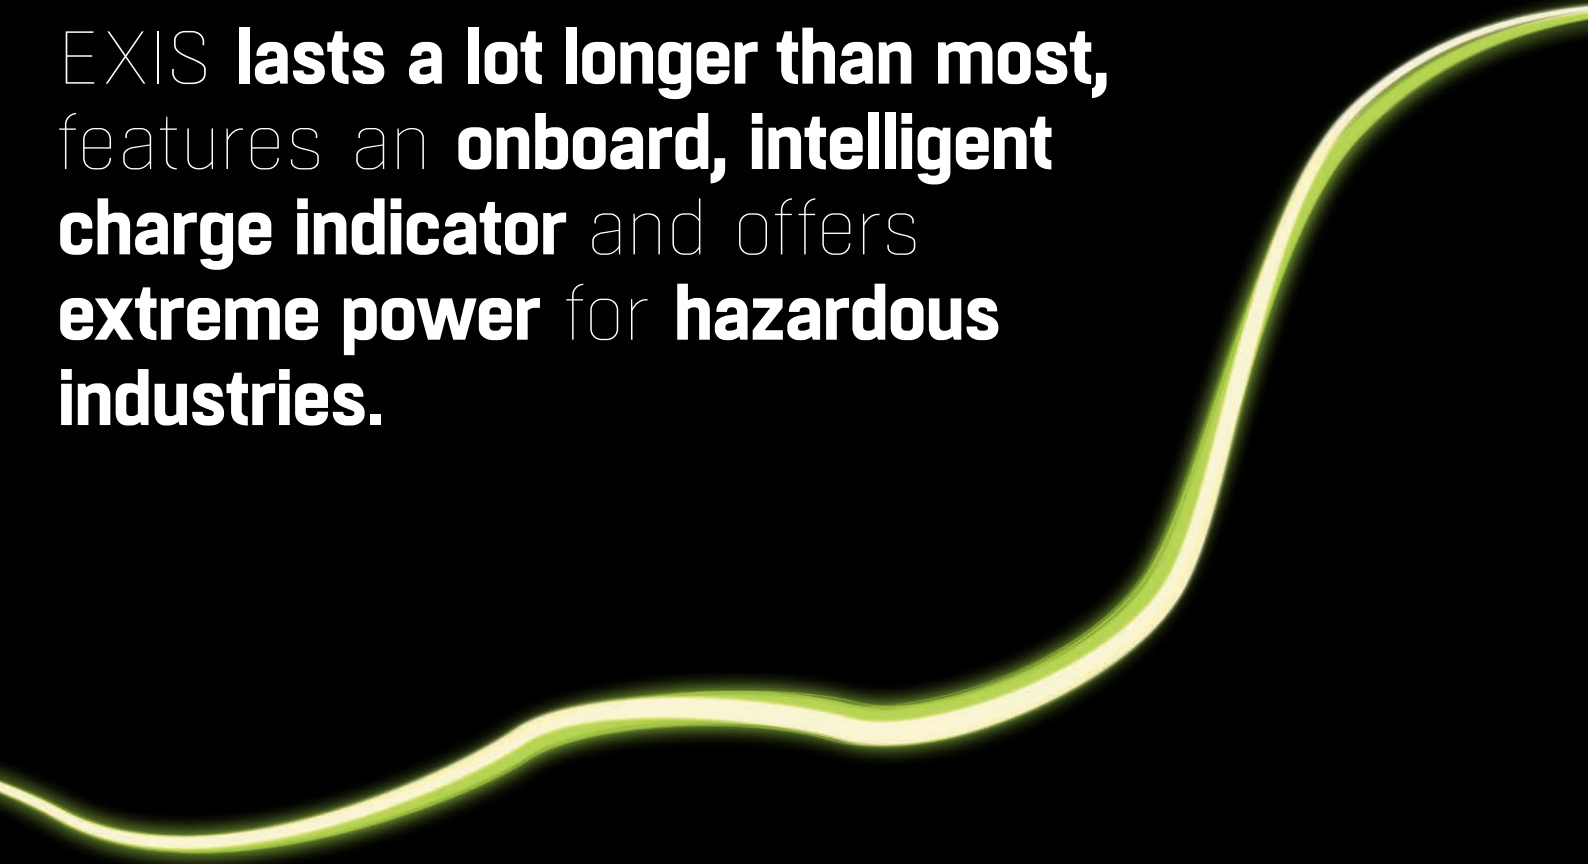

With significantly **rugged engineering**, EXIS not only delivers **maximum power and energy**, but is also **incredibly long lasting**.

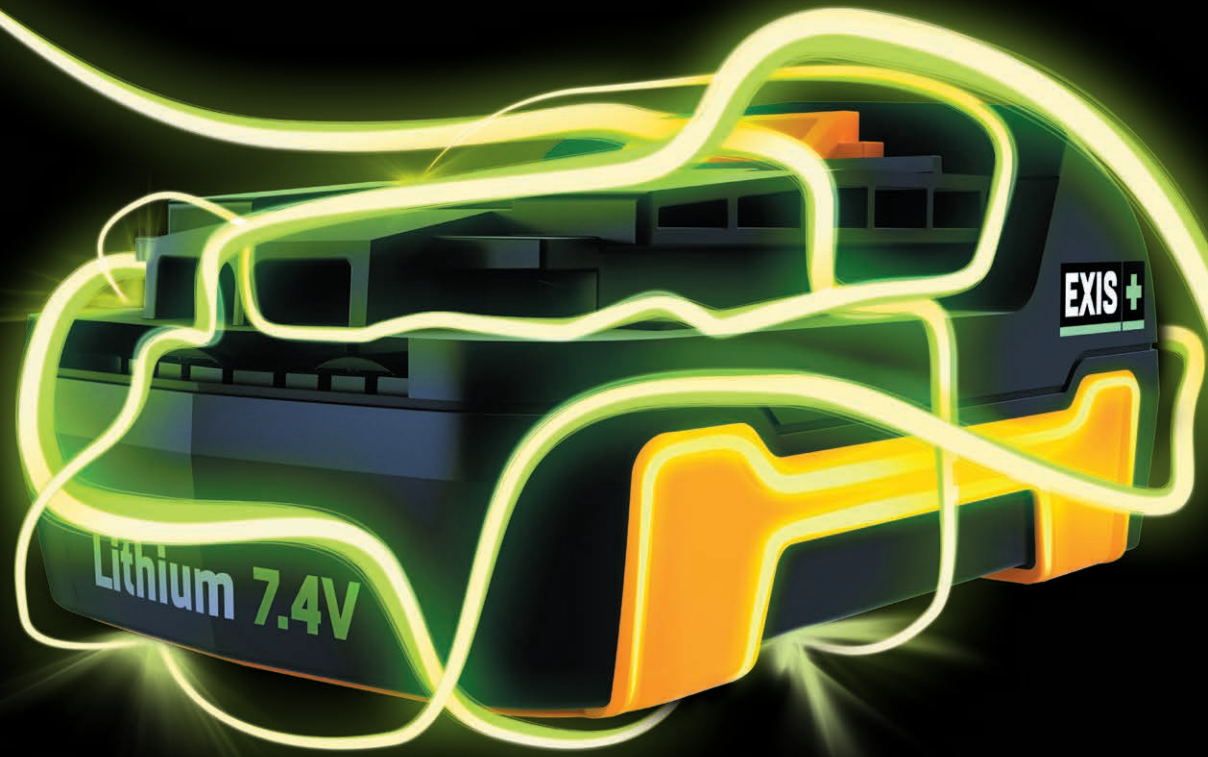

Hot swappable in the field and
3000 mAh, this **cutting edge**
lithium battery can **power a range**
of CorDEX products with **strength**
and precision.

EXIS lasts a lot longer than most,
features an **onboard, intelligent**
charge indicator and offers
extreme power for **hazardous**
industries.

Both **evolutionary** and **revolutionary**, EXIS is **rugged** and **intrinsically safe**.

Being able to swiftly make a **transition between products** with no downtime, charging time, or the need for extras, **greatly reduces cost.**

EXIS +

EnergyEVOLVED

Powering our **new lighting range** and more **innovative CorDEX products** coming in 2015.
