

Global Change Notification (GCN)

Product Family	Various	10722365	
		GCN Number	
Series	Various	October 16, 2015	
		Date Issued	
Reason For Change	Tooling / Equipment Transfer		
Change Description	This is to inform you that the equipment and personnel of several products are moving from the Molex design and development building in Maumelle, AR to the Molex main production facility 300 meters away. There is a different street address for this building. The existing location is 101 Bringler Drive Maumelle, AR 72113, the new street address will be 801 Murphy Drive Maumelle, AR 72113. The reason for this move is to locate the ongoing production processes in a full services production facility, and to release floor space in the pilot plant for the development of new processes. There is no impact to the products that are the subject of this GCN as the same personnel using the same equipment will be producing these products in an existing production facility in our Molex campus in Maumelle, AR.
