

HDMI Image Capture Box

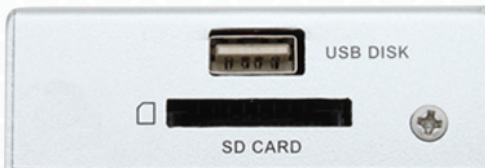

HDMI Output Device Inputs

Capture HD Video and High Resolution Images

Capture screenshot images and videos from HDMI devices with the touch of a button without the need for a PC or imaging software. JPG image files or MP4 video files are saved directly to an SD card or a USB storage device.

Save Files

- HDMI and AVI inputs
- HDMI output
- Save files to SD card or USB storage device
- Speaker and Mic inputs

Note: For image capture, remote control #26700-400-RC is required.
