		Customs tariff no.:	82054000

-   Solution to the extraneous rust problem: fasten stainless screws with stainless tools
-   Hex-Plus allows socket head screws to live longer
-   Stainless L-keys prevent extraneous rust on stainless screws
-   L-keys are quickly to hand thanks to their size markings
-   Wear-resistant clip material for enhanced durability

High quality L-key set out of stainless steel for hexagonal socket screws by Wera. Stainless steel prevents the formation of extraneous rust. The Hex-Plus profile offers a larger contact surface within the screw head. This reduces the notching effects to a minimum and almost completely eliminates the risk of destroying the screw recess. Hexagonal ballpoint end on the long arm: the ballpoint drive profile means that it is possible to swivel the tool axis away from the screwdriving axis, thus enabling round the corner" screwdriving. Comes in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal."
