- Screwdriver for cross-recess screws, Phillips
- Smooth hard zones for high speed turning, soft grip zones for high torque transfer
- Handle markings simplify finding and sorting of tools
- Hexagonal blade and bolster for higher torque transfer
- Lasertip tips for more secure fit in the screw head

High quality Kraftform Plus screwdriver with hexagonal blade. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer for fast and low-fatigue working. Comes with bolster to allow more torque to be applied. Wera Lasertip literally bites into the head of the screw and thereby prevents any slipping. The hexagonal anti-roll feature prevents any bothersome rolling away at the workplace and handle markings make for simplified finding and sorting of the tool.
