- L-keys for recessed TORX® screws
- Holding function for recessed TORX® screws
- BlackLaser for high corrosion protection and long service life
- L-keys are quickly to hand thanks to their size markings
- Wear-resistant clip material for enhanced durability

High quality L-key set for recessed TORX® screws. Holding function: the wedging forces resulting from the contact pressure between the drive tip and the screw profile securely hold the screw on the tool. Featuring an extra-long arm. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. The tools are quickly to hand thanks to the laser-engraved and thereby wear-resistant size markings on the L-keys. Come in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal.
