

Product Change Notice

<p><i>Change Description</i></p>	<p>We change the geometry of the groundig foot an the housing as shown below:</p> <p>Housing with grounding foot old version Housing with grounding foot new version</p>  <p>The image shows four technical drawings of a housing with a grounding foot. The top row shows the 'old version' on the left and the 'new version' on the right. The bottom row shows the same two versions from a different perspective. Red boxes highlight the differences in the grounding foot geometry between the old and new versions. The drawings include labels like '>PA<' and '<PA>'.</p>
<p><i>Change Reason</i></p>	<p>This change will improve the retention force from the terminal block against the carrier rail.</p>

Affected Part Numbers:

2000-1207

2000-1307

2000-1407

Reason for change:

The change in the foot design of the series was necessary to achieve the EX approval of the terminal blocks.

These changes should have no effect the in use or efficiency of the products.

Date (Year): 2014
