- Slotted screwdriver - workshop blade
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- Handle markings simplify finding and sorting of tools
- Hexagonal anti-roll feature against rolling away
- Chrome-plated

High quality Kraftform Plus screwdriver by Wera. Kraftform handle for pleasant, ergonomic working that prevents blisters and calluses. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. The tips of the Wera Lasertip screwdrivers are microscopically roughened by laser beams. This rough surface literally bites into the head of the screw. Any unintentional slipping out is therefore a thing of the past. The hexagonal anti-roll prevents any bothersome rolling away at the workplace. Handle markings for simplified finding and sorting of the tool.
