LIMITLESS ASSEMBLY
LOCTITE

LOCTITE EQ CL36 LED Cure Chamber for an optimal cured performance result of your resins.

The EQ CL36 LED Cure Chamber helps you to cure your 3D printed parts based on resin technology. Easy to use and to make adjustments with one single touch screen.
An automatically rotary table ensures a uniform curing for a professional result.

Highlights:

- Variable light intensity
- Two 200mm x 200mm LED flood lights, top and side
- Rotary table with 2kg payload
- Touch screen user interface with color display
- Accepts part sizes up to 200mm x 200mm x 200mm

- Independently adjustable digital timers for top and side LED floods
- Uniform intensity throughout chamber volume
- Universal power supply
