<b>Product Name:</b>	MEG-ARRAY		
	0 mm Plugs		
<b>Product Manager:</b>	Jermy Ellis		
<b>Subject:</b>	Notification of Change with Immediate Effectivity		
<b>Distribution:</b>	Affected Customers		
<b>Type of Change:</b>	Design Change		
<b>Change Description:</b>	Minor housing mold change to close an open window in the key features for all MEG-Array 0mm plugs. This change is footprint and backward mating compatible. This change will be implemented as current inventory is consumed through 1st half of 2019.		
<b>Reason for Change:</b>	During reflow stresses on the connector housing can cause a knit line to open in the key feature of 0 mm plugs. This condition has not been linked to any functional defects, it does however cause the appearance of damage. Improving the robustness of this feature will reduce the likelihood of knitline opening.
