PCN #:E-19-011087

Subject:AMP MCP 2.8 HOUSINGS WITH SECONDARY LOCKING DEVICE

Description of Change: Dear customers, we hereby inform you about a product improvement at the AMP MCP housing series, which is under design responsibility of TE Connectivity. New housing design has an optimized geometry to make housing more robust. Details of change can be seen at the attachments of this PCN. All existing requirements of Product Spec. 108-18619-3 are still valid after change or even not affected by this change. In addition the area of change does not affect clearance at application, counter-part or process at our customers.

Reason: Product Improvement. Optimized geometry. For further detailed info please contact Sven Schoellhammer (sschoellhammer@[te.com](mailto:sschoellhammer@te.com)) directly

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
