License for mGuard Secure VPN Client v11.x

Product Description

The VPN software client is a software application for connecting PCs to a virtual private network (VPN). The client expands the private network by means of a public, unsecure network, such as the Internet. Resources from remote networks can be accessed both securely and transparently. As a result, data can be transferred reliably between the client and the mGuard system.

You must activate the VPN software client after the test period at the latest. You will find the online activation under the menu item "License information and activation" under "Help". For offline activation, please go to: phoenixcontact.com/mguard-vpn-client-aktivierung

Your advantages

- ☑ For desktops, laptops, or tablet PCs running Windows 10, Windows 8.x, or Windows 7
- ☑ Compatible with the complete mGuard system
- ☑ Compatible with ADSL and mobile communication routers from Phoenix Contact
- ☑ Maximum security with IPsec protocol on Layer 3
- ☑ Supports current certificates such as x509.v3
- ☑ Secure data transmission with 128/192/256-bit AES encryption
- ☑ Extended authentication compared to switches and access points in accordance with IEEE 802.1x
- ☑ Free 30-day trial version available to download

Key Commercial Data

Packing unit	1 pc
GTIN	4 055626 234397
GTIN	4055626234397
Weight per Piece (excluding packing)	21.350 g
Custom tariff number	49119900
Country of origin	Germany

Technical data

Product type	Remote control software
