LKM/CL8 Cable Tie Mounts

With these screwfix mounts it is possible to install the cable sideways. The FH mounts feature a compact design. The CL8/LKM mounts are ideal for securing large, heavier, bundles and will accept cable ties up to 8mm wide.

In areas with limited space these mounting bases allow the cable to be offset from the fixing hole, and can be installed in the equipment prior to the cable installation. A major cost saving can be made by using these products as many different sizes of standard cable ties can be used, reducing the need to stock a wide range of specific fixing ties.
