## Design verification as per IEC/EN 61439

AC-1

| Technical data for design verification                   |                  |    |       |
|--|------------------|----|-------|
| Rated operational current for specified heat dissipation | In               | Α  | 80    |
| Equipment heat dissipation, current-dependent            | P <sub>vid</sub> | W  | 20.83 |
| Operating ambient temperature min.                       |                  | °C | -25   |

| Operating ambient temperature max.   | °C | 70   |
|--|----|--|
| EC/EN 61439 design verification  |    |  |
| 10.2 Strength of materials and parts   |    |  |
| 10.2.2 Corrosion resistance  |    | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |    | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |    | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |    | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |    | Meets the product standard's requirements.   |
| 10.2.5 Lifting   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  |    | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |    |  |
| 10.9.2 Power-frequency electric strength   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |    | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   |    | Is the panel builder's responsibility. The specifications for the switch<br>gear must be observed.                               |
| 10.12 Electromagnetic compatibility  |    | Is the panel builder's responsibility. The specifications for the switch<br>gear must be observed.                               |
| 10.13 Mechanical function  |    | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

| With thermal protection                                |                        | Yes  |
| Phase failure sensitive                                |                        | Yes  |
| Switch off technique                                   |                        | Thermomagnetic   |
| Rated operating voltage                                | V                      | 690 - 690  |
| Rated permanent current lu                             | Α                      | 80   |
| Rated operation power at AC-3, 230 V                   | kW                     | 22   |
| Rated operation power at AC-3, 400 V                   | kW                     | 45   |
| Type of electrical connection of main circuit          |                        | Other  |
| Type of control element                                |                        | Rocker lever   |
| Device construction                                    |                        | Built-in device fixed built-in technique                                 |
| With integrated auxiliary switch                       |                        | No   |
| With integrated under voltage release                  |                        | No   |
| Number of poles  |                        | 3  |
| Rated short-circuit breaking capacity Icu at 400 V, AC | kA                     | 100  |
| Degree of protection (IP)                              |                        | IP20   |
| Height   | mm                     | 145  |
| Width  | mm                     | 90   |
| Depth  | mm                     | 88   |
|  |                        |  |

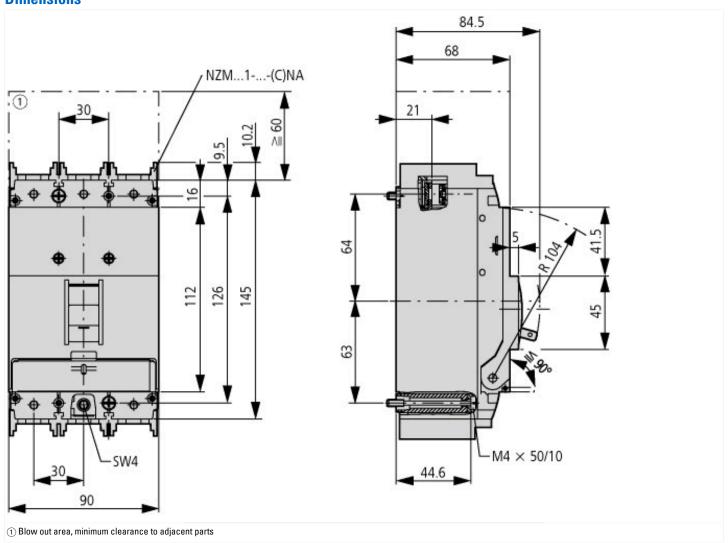

# **Characteristics** 2.5 h 8000 6000 4000 NZM1-M...

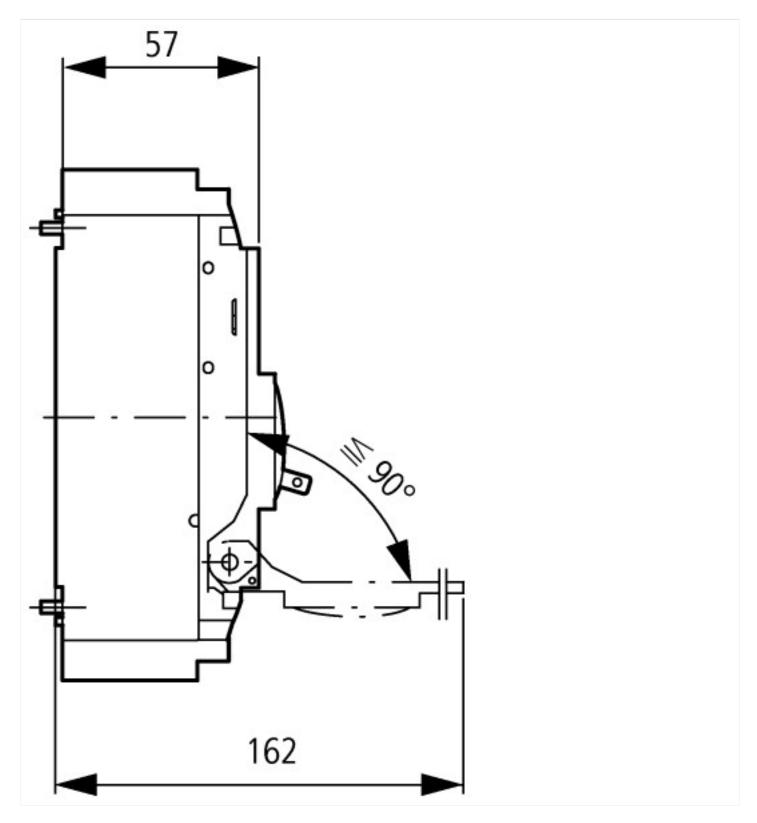

Let-through current

Let-through energy

### **Dimensions**
