# DATASHEET - Q25DR-GE

Pushbutton, yellow, maintained

Part no.Q25DR-GECatalog No.088404Alternate CatalogQ25DR-GENo.No.

#### Delivery program

| Product range              | RMQ16                |
|----------------------------|----------------------|
| Basic function             | Pushbutton actuators |
| Single unit/Complete unit  | Single unit          |
| Design                     | Flat                 |
|                            | maintained           |
| Button plate               |                      |
| button plate               | yellow               |
| Button plate               |                      |
|                            | Blank                |
| Degree of Protection       | IP65                 |
| Front ring                 | without bezel        |
| Connection to SmartWire-DT | no                   |
| Front dimensions           | 25 × 25              |
| Notes                      |                      |
| <b>→</b> #090351           |                      |

#### Technical data

| General                            |              |                   |  |
|------------------------------------|--------------|-------------------|--|
| Standards                          |              |                   | IEC/EN 60947, VDE 0660   |
| Lifespan, mechanical               | Operations   | x 10 <sup>6</sup> | > 3  |
| Operating frequency                | Operations/h |                   | ≦ 1800   |
| Actuating force                    |              | n                 | ≦ 4  |
| Degree of protection, IEC/EN 60529 |              |                   | IP65   |
| Climatic proofing                  |              |                   | Damp heat, constant, to IEC 60068-2-78<br>Damp heat, cyclic, to IEC 60068-2-30 |
| Ambient temperature                |              |                   |  |
| Open                               |              | °C                | -25 - +60  |
| Enclosed                           |              | °C                | - 25 - 40  |
| Mounting position                  |              |                   | As required  |
| Mechanical shock resistance        |              | g                 | > 40<br>according to IEC 60068-2-27<br>Shock duration 11 ms<br>Sinusoidal      |
| Terminal capacities                |              | mm <sup>2</sup>   | 0.5 - 1.0  |
| Blade terminal                     |              |                   | 2.8 x 0.8 mm to DIN 46244  |
| Fast-on connectors                 |              |                   | 2.8 x 0.8 mm to DIN 46247 and IEC 60760  |

# Design verification as per IEC/EN 61439

| Technical data for design verification                   |                  |   |   |
|--|------------------|---|---|
| Rated operational current for specified heat dissipation | In               | А | 0 |
| Heat dissipation per pole, current-dependent             | P <sub>vid</sub> | W | 0 |
| Equipment heat dissipation, current-dependent            | P <sub>vid</sub> | W | 0 |
| Static heat dissipation, non-current-dependent           | P <sub>vs</sub>  | W | 0 |

| Heat dissipation capacity  | P <sub>diss</sub> | W  | 0  |
|--|-------------------|----|--|
| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 60   |
| EC/EN 61439 design verification  |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Please enquire   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.6 Incorporation of switching devices and components   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.7 Internal electrical circuits and connections  |                   |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |    |  |
| 10.9.2 Power-frequency electric strength   |                   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |                   |    | Not applicable.  |
| 10.11 Short-circuit rating   |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must b observed.            |
| 10.12 Electromagnetic compatibility  |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must b observed.            |
| 10.13 Mechanical function  |                   |    | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed. |

# **Technical data ETIM 7.0**

Low-voltage industrial components (EG000017) / Front element for push button (EC000221)

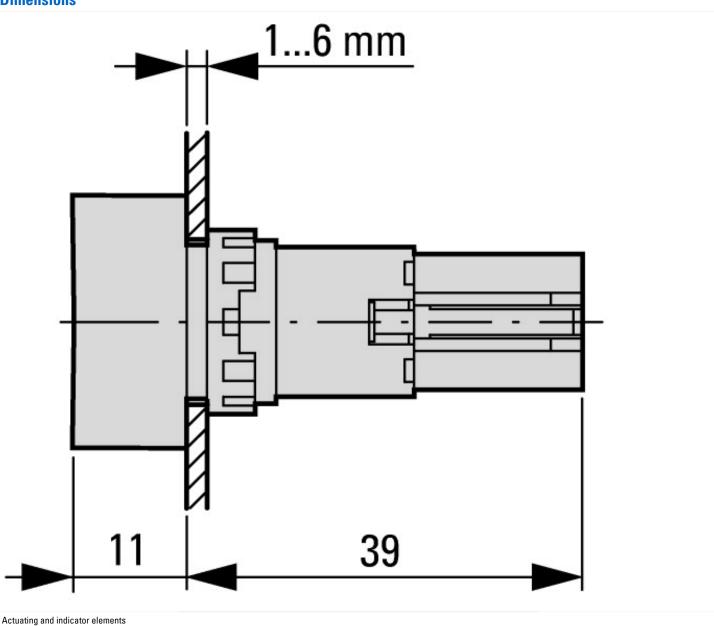

| Electric engineering, automation, process control engineering / Low-voltage switch technolog | gy / Command and alarm device / Front element for push-button actuators |
|--|---|
| (ecl@ss10.0.1-27-37-12-10 [AKF028014])   |   |

| Colour button                           |    | Yellow  |
|---|----|---------|
| Number of command positions             |    | 1       |
| Construction type lens                  |    | Square  |
| Hole diameter                           | mm | 16      |
| Width opening                           | mm | 0       |
| Height opening                          | mm | 0       |
| Type of button                          |    | Flat    |
| Suitable for illumination               |    | No      |
| With protective cover                   |    | No      |
| Labelled                                |    | No      |
| Switching function latching             |    | Yes     |
| Spring-return                           |    | No      |
| With front ring                         |    | Yes     |
| Material front ring                     |    | Plastic |
| Colour front ring                       |    | Black   |
| Degree of protection (IP), front side   |    | IP65    |
| Degree of protection (NEMA), front side |    | 1       |
