## DATASHEET - NZM2-XTVD-0

Door coupling rotary handle, black, size 2

Part no. Catalog No.

NZM2-XTVD-0 279393

| Delivery program             |  |
|------------------------------|--|
| Product range                | Accessories  |
| Accessories                  | Door coupling rotary handle  |
| Standard/Approval            | UL/CSA, IEC  |
| Construction size            | NZM2   |
| Description                  | Door coupling rotary handle for operating the switch through a closed control panel door   |
| Function                     | Standard, black/grey   |
| Protection class             | IP66<br>UL/CSA Type 4X, Type 12  |
| Locking facility             | lockable on the 0 position on the handle using up to 3 padlocks<br>With door interlock   |
| Door interlock               | Not defeated in the locked OFF and ON positions<br>Can be modified in the unlocked ON position<br>Can be modified such that it can be defeated from the outside using a screwdrive<br>Door can be opened in OFF                              |
| Project planning information | Complete including rotary drive and coupling parts<br>For extremely narrow fittings<br>With special short extension shaft<br>Cannot be combined with NZMXDZ additional handle<br>External warning plate/designation label can be clipped on. |
| For use with                 | NZM2(-4), PN2(-4), N(S)2(-4)   |
| lockable                     | single   |
| Notes                        |  |

Circuit-breaker can also be installed in a lying position 90 ° left/right, with the handle still in the same position.

# Design verification as per IEC/EN 61439

| IEC/EN 61439 design verification  |  |
|---|--|
| 10.2 Strength of materials and parts  |  |
| 10.2.2 Corrosion resistance   | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures  | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat  | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat<br>and fire due to internal electric effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation  | Meets the product standard's requirements.   |
| 10.2.5 Lifting  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions   | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances  | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections   | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors  | Is the panel builder's responsibility.   |
| 10.9 Insulation properties  |  |
| 10.9.2 Power-frequency electric strength  | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage  | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material  | Is the panel builder's responsibility.   |
| 10.10 Temperature rise  | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |

10.13 Mechanical function

Is the panel builder's responsibility. The specifications for the switchgear must be observed.

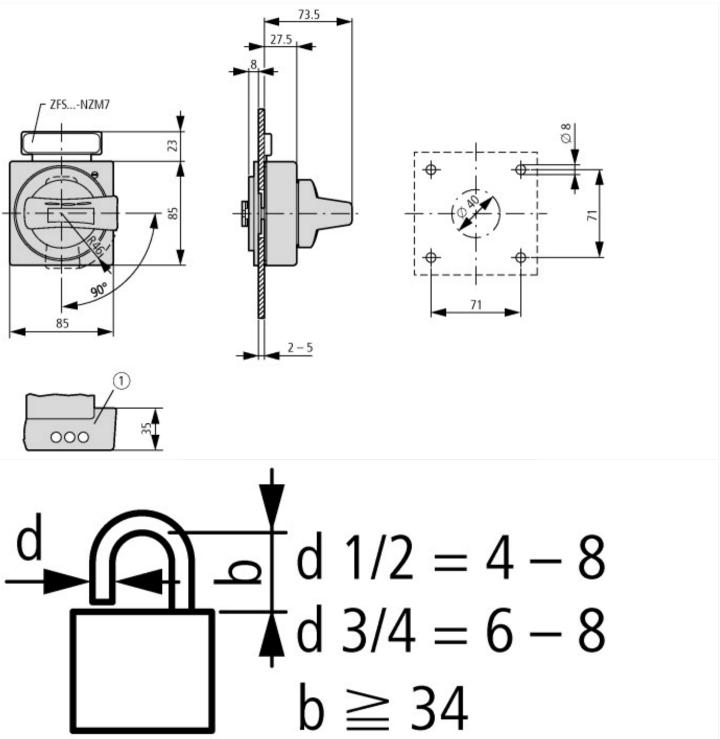

The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

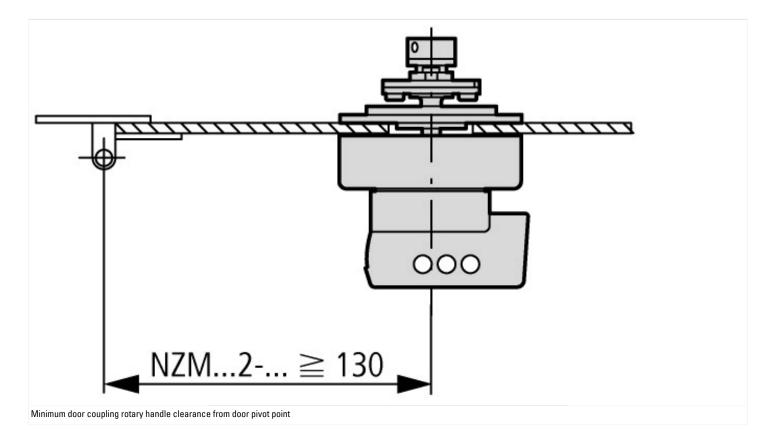

## **Technical data ETIM 7.0**

Low-voltage industrial components (EG000017) / Handle for power circuit breaker (EC000229)

| Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Handle for switch devices (ecl@ss10.0.1-27-37-04-14 [AKF012014]) |       |  |
|--|-------|--|
| Lockable   | Yes   |  |
| Colour   | Black |  |
| Suitable for emergency stop  | No    |  |
| With extension shaft   | No    |  |
| Suitable for power circuit breaker   | Yes   |  |
| Suitable for switch disconnector   | Yes   |  |
