DATASHEET - NZM4-XTVDV

Door coupling rotary handle, lockable on the handle+switch

Powering Business Worldwide*

Part no. NZM4-XTVDV Catalog No. 266616

Similar to illustration

Product range Accessories Accessories Accessories Door coupling rotary handle Standard/Approval UL/CSA, IEC Construction size NZM4 Description Door coupling rotary handle for operating the switch through a closed control panel door Function Standard, black/grey Protection class IP66 Locking facility lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well with door interlock Door interlock Not defeated in the locked OFF and ON positions Can be modified up that it can be defeated from the outside using a screwdriver Door can be opened in OFF Project planning information External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required. For use with NZM4(-4), N(S)4(-4)	Delivery program	
Standard/Approval UL/CSA, IEC Construction size NZM4 Description Door coupling rotary handle for operating the switch through a closed control panel door Function Standard, black/grey Protection class IP66 UL/CSA Type 4X, Type 12 Locking facility lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock Door interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified in the unlocked ON position Can be modified in the unlocked ON position Can be opened in OFF Project planning information External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Product range	Accessories
Construction size Description Door coupling rotary handle for operating the switch through a closed control panel door Function Standard, black/grey Protection class IP66 UL/CSA Type 4X, Type 12 Locking facility Door interlock Door interlock Not defeated in the locked OFF and ON positions Can be modified such that it can be defeated from the outside using a screwdriver Door can be opened in OFF Project planning information External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Accessories	Door coupling rotary handle
Description Description Door coupling rotary handle for operating the switch through a closed control panel door Standard, black/grey Protection class Door coupling rotary handle for operating the switch through a closed control panel door Standard, black/grey Protection class Dockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock Door interlock Door interlock Door can be modified in the locked OFF and ON position Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdriver Door can be opened in OFF External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Standard/Approval	UL/CSA, IEC
Function Function Standard, black/grey Protection class IP66 UL/CSA Type 4X, Type 12 Locking facility Locking facility Door interlock Door interlock Project planning information panel door Standard, black/grey Locked Deck Type 4X, Type 12 Locking facility Not defeated in the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock Not defeated in the locked OFF and ON positions Can be modified such that it can be defeated from the outside using a screwdriver Door can be opened in OFF External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Construction size	NZM4
Protection class P66 UL/CSA Type 4X, Type 12	Description	
Locking facility Locking facility Locking facility Locking facility Lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdriver Door can be opened in OFF Project planning information External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Function	Standard, black/grey
Modifiable on handle in I position as well With door interlock Door interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdriver Door can be opened in OFF Project planning information External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Protection class	**
Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdriver Door can be opened in OFF Project planning information External warning plate/designation label can be clipped on. Complete including rotary drive and coupling parts Extension shaft additionally required.	Locking facility	Modifiable on handle in I position as well
Complete including rotary drive and coupling parts Extension shaft additionally required.	Door interlock	Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdriver
For use with NZM4(-4), N(S)4(-4)	Project planning information	Complete including rotary drive and coupling parts
	For use with	NZM4(-4), N(S)4(-4)

double

lockable Notes

Circuit-breaker can also be installed in a lying position 90 ° left/right, with the handle still in the same position.

Design verification as per IEC/EN 61439

EC/EN 61439 design verification	
10.2 Strength of materials and parts	
10.2.2 Corrosion resistance	Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures	Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat	Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects	Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation	Meets the product standard's requirements.
10.2.5 Lifting	Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact	Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions	Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES	Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances	Meets the product standard's requirements.
10.5 Protection against electric shock	Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components	Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections	Is the panel builder's responsibility.
10.8 Connections for external conductors	Is the panel builder's responsibility.
10.9 Insulation properties	
10.9.2 Power-frequency electric strength	Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage	Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material	Is the panel builder's responsibility.
10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.

10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

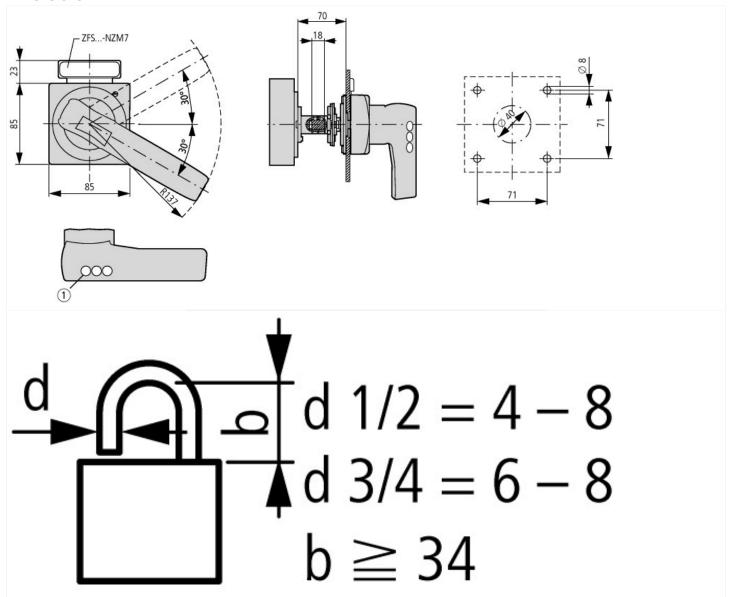

Technical data ETIM 7.0

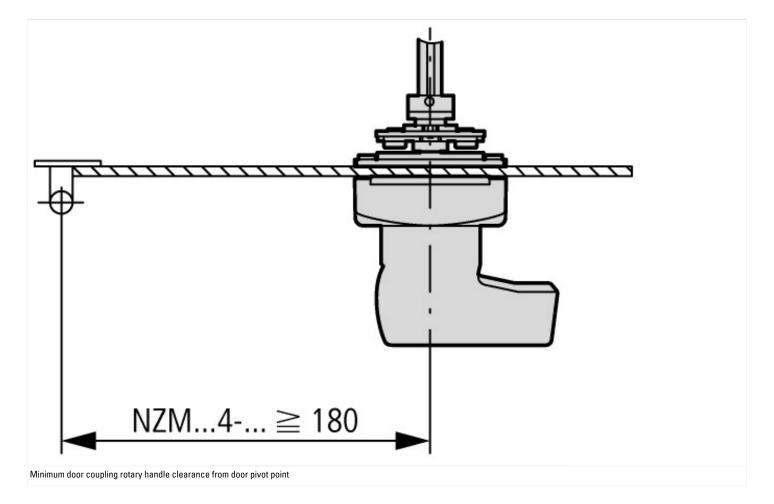

Low-voltage industrial components (EG000017) / Handle for power circuit breaker (EC000229)		
Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Handle for switch devices (ecl@ss10.0.1-27-37-04-14 [AKF012014])		
Lockable	Yes	
Colour	Black	
Suitable for emergency stop	No	
With extension shaft	No	
Suitable for power circuit breaker	Yes	
Suitable for switch disconnector	Yes	

Approvals

Product Standards	UL489; CSA-C22.2 No. 5-09; IEC60947, CE marking
UL File No.	E140305
UL Category Control No.	DIHS
CSA File No.	022086
CSA Class No.	1437-01
North America Certification	UL listed, CSA certified
Degree of Protection	IEC: IP66, UL/CSA Type 4X, 12
