

MP005022

MP005023

Description

High quality emollient to repair and prevent dry and cracked hands

Features and Benefits

More than just a moisturiser, this cream literally puts the life back into your hands. It is a high quality emollient / reconditioning cream that enables the skin to replace oils and moisture lost during the working day. It therefore prevents the skin from drying out and cracking while also helping damaged and cracked skin to heal. Use greatly reduces the chances of developing dermatitis. Used after washing, it leaves the skin moisturised and supple without feeling greasy - a vital factor for healthy and safe hands.
