

RoHS
Compliant

Description

This Wiring Pencil or wiring pen without brake is preloaded with a Tinned Copper Wire (TCW) bobbin or wire spool (non-insulated). The original Wiring Pencil prototype wiring tool, is well balanced and easy to handle, with a long-life stainless-steel tip for high-speed accurate wiring, even in the most confined areas. Wire feed tension is varied by gently adjusting the bobbin supports or adjusting the angle of the device during the wiring process. A full, ready to use Tinned Copper Wire (TCW) bobbin of wire or wire spool is supplied with each pencil.

Applications

This wiring tool, is recommended for entry level and advanced students, technicians or hobbyists for the assembly and wiring of simple electronic circuits; end of line or Field Service for PCB or PWB track repair, rework, shorting links or modifications.
