

FM2029-02 Mini Hot Air Tool (Hand Piece Only)

SKU: HFM2029-02

Single-nozzle hot air handpiece designed exclusively for HAKKO FM-206

Slim grip is ideal for work in narrow spaces

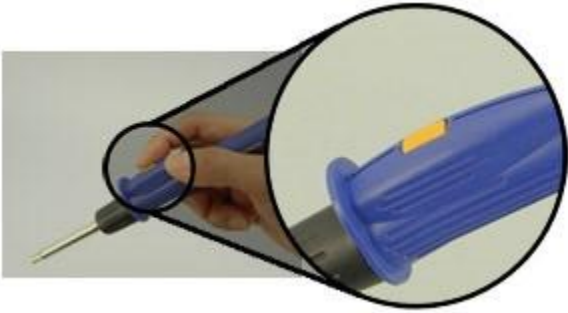

Hand switch enables easy ON/OFF operation

Hand Piece ONLY Nozzles NOT included

The FM2029-02 is a miniature hot air rework handpiece with a single nozzle for use with the HAKKO FM-206 Station.

Includes a slim grip and an easy on/off feature for easy use in narrow spaces. Securely and easily remove 10 x 10 (mm) chips.

Connectable to a handpiece holder to control the air. Connect [HAKKO FM-206](#) and the handpiece holder with a relay cord to turn off the air automatically when the handpiece is placed in the handpiece holder. Turn on the air again by operating the hand switch. The air does not turn on automatically when the handpiece is picked from the handpiece holder.

The nozzle is a built-in heater composite-type unit

The composite-type nozzle provides excellent thermal recovery and easy one-touch nozzle replacement. Heater replacement, which used to be difficult with the hot air-type, is no longer required

Specifications

Model No.	FM2029-01	FM2029-02
Power consumption	140W(24V)	
Temperature range	100 to 550°C	
Nozzle to ground resistance	<2 μ	
Nozzle to ground potential	<2mV	
Heating element	Composite heater	
Cord length	1.2m	
Total length	232mm(with Φ 4.0mm nozzle)	
Weight	50g(with Φ 4.0mm nozzle)	

* Total length and weight (w/o cord, tube)
