## CUTLERY FROM THE CUTTING EDGE

We've transferred our DIY-equipment skills to the kitchen, with a range of quality cutlery that we've produced for over 200 years. The range is completed by precision-cutting scissors.

## CONSTANT DEVELOPMENT

Many of our cutlery products have a long tradition, but we never become complacent. Constant developing and refining of our range keeps our knives at the cutting edge. Yes, we can stand the heat.

## A TOTAL GUARANTEE

Traditional methods combined with the latest technology give us the confidence to guarantee the quality and performance of every single knife, and every last pair of scissors.

## SCISSOR DISPLAYS

**THE SCISSOR RANGE** - The C.K high quality, comprehensive range of drop forged, hollow ground scissors offers practical elegance for every possible application. Either as a professional hardened and polished cutting tool or for use as a correctly set, universal cutter, C.K scissors provide whisper-sharp blades that cut along the whole blade length for optimum performance. Balance is built in to all C.K scissors for comfortable efficient cutting, even over long periods of use. All scissors (except some Industrial) are supplied in bright, point of sale display packaging.

**SCISSOR DISPLAYS** - C.K offer a range of attractive displays to suit customers requirements. Based on standard pegboard for wall or toolbar mounting. Choose either the C.K standard assortment C8033LS or create your own display.

Please ask your local C.K representative for more details.

### SCISSOR DEFINITIONS

#### BOWS

Holes for finger and thumb

#### LADIES

Equal thumb and finger bows. General purpose for lighter work e.g. Fabric, paper, string.

#### CUTTING

Two finger bow and thumb bow. For slightly heavier duty work.

#### TRIMMING

Two finger bow and thumb bow, Side bent, allowing for heavy duty cutting on a flat surface.

#### TAILORS

Like Trimming but bigger for really heavy duty cutting of fabric and material.

#### EASY BOWS

Contoured bows for comfortable right handed use.

#### LEFT HANDED

Reversed Easy Bows and blades for left hand use.

#### WITH SCREW

Rather than fixed rivet, a screw allows for tension adjustment.

#### WITH BOLT

Like a screw, but heavier duty.
