

Product Data Sheet

Eureka UHF Active Asset Tag - Transmit Only

UHF Active Asset Tag

A hands free, long range active tag, generally used for asset and vehicle identification, tracking and security applications.

The tag is powered by an internal battery and operates by transmitting data using a UHF signal repeatedly at a preset intervals. Built-in anti-collision allows multiple tags to be identified simultaneously.

Operational tag life is up to 3-5 years depending on the tags use, configuration, application and environment.

Other additional features include, OEM Codes to ensure reliable operation with multiple systems, battery monitor giving prior warnings to prevent tag failures, configurable orientation for maximum range and sensors.

Applications

- Asset Monitoring
- Security

Tag

RF Frequency	868MHz
Modulation	FSK
ERP	<2uW
Data Rate	19,200 Baud
Range	Up to 100m*
Physical	
Dimensions Size	38.3mm x 33.1mm x 10.2mm
Weight	11g
Case Material	ABS (Ultrasonically Sealed or Resin Potted)
Environmental	
Temperature	-10°C to +50°C
Electrical	
Power	Internal Lithium Coin Cell

* Subject to orientation & environmental conditions.
