

## Polyester Standard – 02.08 19 08

Plastic enclosure in glass fibre reinforced polyester consisting of lid, seal, incl. captive +/-stainless steel screws, base with 2 or 4 earthing screws

|                           |               |
|---------------------------|---------------|
| Dimensions H x W x D (mm) | 75 x 190 x 75 |
| Weight (g)                | 583           |
| Order number              | 02.08 19 08   |
| Product type              | POS 02055     |

- + Robust plastic enclosure for automation technology and mechanical engineering
- + Fixing options for DIN rails and mounting plates
- + Universal configuration

### Technical Data

|                           |  |
|---------------------------|--|
| Material                  | glass fibre reinforced thermoset polyester         |
| Colour                    | RAL 7000, squirrel grey, special colour on request |
| Ingress protection        | IP 66 to EN 60529 (IP 67 on request)               |
| Impact resistance         | 7 Joule in reference to EN 60079-0                 |
| Temperature range         | CR (chloroprene) seal: -40°C to +100°C             |
| Other versions on request | EMC, Silicone lid seal                             |

## Polyester Standard – 02.08 19 08

### Number of cable glands

Maximum number of cable glands to DIN 50262\*

| M  | PG    | Side |     |
