

tesa® 7476

Product Information

tesa® 7476

tesa® 7476 has been successfully deployed for many years when it comes to assessing the release properties of silicone coatings (Finat 10 or similar).

For a comprehensive characterization of release properties it is recommended to use both tesa® 7475 (acrylic adhesive) and tesa® 7476 (natural rubber adhesive).

It is recommended to store tesa® 7476 at 23 °C and 50 % relative humidity.

Main Application

Characterization of silicone coatings

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Technical Data

• Backing material	cotton cloth	• Type of liner	glassine
• Type of adhesive	natural rubber	• Shelf life time	12 months
