

# tesa® 4173 PV2

## **Product Information**

## Soft PVC tape for basic bundling in the automotive passenger compartment

tesa® 4173 PV2 is a PVC film tape with an acrylic adhesive for basic bundling of automotive harnesses used in the passenger compartment of vehicles. The tape is convenient to use due to its constant unwind force, flexible backing, and hand-tearability. It is optimized for manual application.

tesa® 4173 PV2 is resistant to temperatures of up to 105°C for 3000 hours, and is class B flame-resistant. The bundling tape is resistant to abrasion and features class A noise damping.

#### Main features:

- Temperature resistance of up to 105°C for 3000h
- · Hand-tearable
- Constant unwind force optimized for manual application
- Flag-resistant
- · Resistant to environmental influences
- Ageing-resistant
- Flame-retardant
- · Flexible and smooth

## Main Application

tesa® 4173 PV2 has been particularly developed for efficient bundling of wire harness parts in the automotive passenger compartment.

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### Technical Data

•	Backing material	PVC film	•	Temperature resistance (3000h)	105 °C
•	Total thickness	126 μm	•	Abrasion resistance (10mm	Class A (acc. to
•	Type of adhesive	acrylic		mandrel)	LV312)
•	Elongation at break	250 %	•	Abrasion resistance (5mm	Class A (acc. to
•	Tensile strength	30 N/cm		mandrel)	LV312)
•	Temperature resistance min.	-25 °C	•	Flame resistance as composite	Class B (acc. to LV312)
			•	Noise damping (decibel)	Class A (acc. to
					LV312)
			•	Dielectric breakdown voltage	7000 volt

#### Adhesion to

• steel 1.8 N/cm

# tesa® 4173 PV2

# **Product Information**

#### **Additional Information**

Standard widths: 9, 19, 25, 32 mm

Standard lengths: 33 m

\*Most combinations of width and length are possible

\*Further dimensions are available upon request

\*Standard core diameter: 38 mm
