

CATx PS2 Computer Access Module

Item # CATX-PS2

Description

The AdderView CATx Series is a range of secure, KVM via CATx switches that provide 4 concurrent local, remote or global users with BIOS-level control of up to 24 multiplatform servers. A "plug-and-play," 1U appliance, the AdderView CATx is a completely self-contained system that installs in minutes combining high security, flexibility, integrated remote power control, faultless quality video and optional CD quality audio. The two members of the series are the AdderView CATx supporting 16 or 24 CATx computer connections, 4 simultaneous users (1 x local PS/2 or USB, 4 x remote over CATx) and the AdderView CATx IP supporting 16 or 24 CATx computer connections, 4 simultaneous users (1 x local PS/2 or USB, 2 x remote over CATx, 1 x global over IP). Order online today!
