

Coaxial Plastic Bend Protector for RG59/62, Pkg/10 Black
Item # BIF-P0-59/62

Description

This slip on molded strain relief boot is designed to be used on RG59 or RG62 style coaxial cable. The molded construction provides support to prevent cable damage during flexure. Black color allows for color coding when used in conjunction with other available colors.

Features

- Black is one of five colors offered
- Molded construction helps prevent cable damage due to flexure
- Sold in packages of 10
- Strain relief for RG59 and RG62 style coaxial cable connectors

Application

- Coax cable repair
- Coax cable construction
