

# Safety Data Sheet according to (EC) No 1907/2006 as amended

Page 1 of 16

SDS No.: 152782 V006.1

Revision: 14.02.2023

printing date: 17.07.2023

Replaces version from: 19.07.2019

LOCTITE SI 5145

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

LOCTITE SI 5145

## 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: Silicone sealant

# 1.3. Details of the supplier of the safety data sheet

Henkel Ltd

Adhesives

Wood Lane End

HP2 4RQ Hemel Hempstead

Great Britain

Phone: +44 (1442) 278000

SDSinfo.Adhesive@henkel.com

For Safety Data Sheet updates please visit our website https://mysds.henkel.com/index.html#/appSelection or www.henkel-adhesives.com.

#### 1.4. Emergency telephone number

24 Hours Emergency Tel: +44 (0)1442 278497

## **SECTION 2: Hazards identification**

## 2.1. Classification of the substance or mixture

#### Classification (CLP):

Skin sensitizer H317 May cause an allergic skin reaction. Category 1

#### 2.2. Label elements

## Label elements (CLP):

Hazard pictogram:

**Contains** Substituted aliphatic-terminated poly(dimethylsiloxane)

Signal word: Warning

**Hazard statement:** H317 May cause an allergic skin reaction.

**Precautionary statement:** 

Prevention

P280 Wear protective gloves.

**Precautionary statement:** 

Response

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

## 2.3. Other hazards

None if used properly.

Self-classification according to Article 12(b) of (EU) 1272/2008.

Following substances are present in a concentration ≥ the concentration limit for depiction in Section 3 and fulfill the criteria for PBT/vPvB, or were identified as endocrine disruptor (ED):

| octamethylcyclotetrasiloxane | PBT/vPvB |
|------------------------------|----------|
| 556-67-2                     |          |

# **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

#### Declaration of the ingredients according to CLP (EC) No 1272/2008:

| Hazardous components CAS-No. EC Number REACH-Reg No.                          | Concentration | Classification  | Specific Conc. Limits, M-<br>factors and ATEs | Add.<br>Information |
|---|---------------|---|---|---------------------|
| Substituted aliphatic-terminated poly(dimethylsiloxane) 193159-06-7 415-290-8 | 50- 100 %     | Skin Sens. 1, H317  |   |                     |
| Silane, dimethoxydimethyl-<br>1112-39-6<br>214-189-4<br>01-2119976290-35      | 1- < 5 %      | Flam. Liq. 2, H225  |   |                     |
| Hexamethyldisiloxane<br>107-46-0<br>203-492-7<br>01-2119496108-31             | 0,1-< 0,25 %  | Flam. Liq. 2, H225<br>Aquatic Acute 1, H400<br>Aquatic Chronic 2, H411  | M acute = 1                                   |                     |

For full text of the H - statements and other abbreviations see section 16 "Other information". Substances without classification may have community workplace exposure limits available.

## **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

Inhalation:

Move to fresh air. If symptoms persist, seek medical advice.

Skin contact:

Rinse with running water and soap.

Obtain medical attention if irritation persists.

Eye contact:

Rinse immediately with plenty of running water (for 10 minutes), seek medical attention from a specialist.

Ingestion:

Rinse mouth, drink 1-2 glasses of water, do not induce vomiting, consult a doctor.

#### 4.2. Most important symptoms and effects, both acute and delayed

SKIN: Rash, Urticaria.

Prolonged or repeated contact may cause eye irritation.

#### 4.3. Indication of any immediate medical attention and special treatment needed

See section: Description of first aid measures

# **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media:

water, carbon dioxide, foam, powder

#### Extinguishing media which must not be used for safety reasons:

High pressure waterjet

# 5.2. Special hazards arising from the substance or mixture

In the event of a fire, carbon monoxide (CO), carbon dioxide (CO2) and nitrogen oxides (NOx) can be released. Silicon dioxide

#### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear.

## Additional information:

In case of fire, keep containers cool with water spray.

## **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes.

Wear protective equipment.

Ensure adequate ventilation.

#### **6.2. Environmental precautions**

Do not empty into drains / surface water / ground water.

#### 6.3. Methods and material for containment and cleaning up

Dispose of contaminated material as waste according to Section 13.

Scrape up as much material as possible.

Sweep up spilled material. Avoid creating dust.

Store in a partly filled, closed container until disposal.

#### 6.4. Reference to other sections

See advice in section 8

# **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Avoid skin and eye contact. See advice in section 8

Hygiene measures:

Good industrial hygiene practices should be observed. Wash hands before work breaks and after finishing work.

Do not eat, drink or smoke while working.

# 7.2. Conditions for safe storage, including any incompatibilities

Store in a cool, well-ventilated place. Refer to Technical Data Sheet Never allow product to get in contact with water during storage

# 7.3. Specific end use(s)

Silicone sealant

# **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

## **Occupational Exposure Limits**

Valid for

Great Britain

None

#### **Occupational Exposure Limits**

Valid for

Ireland

None

# $\label{eq:predicted} \textbf{Predicted No-Effect Concentration (PNEC):}$

|  | Compartment                | Exposure   | Value                                   |     |                |        | Remarks |
|--|----------------------------|--|---|-----|----------------|--------|---------|

#### **Biological Exposure Indices:**

None

#### 8.2. Exposure controls:

Engineering controls:

Ensure good ventilation/extraction.

#### Respiratory protection:

Ensure adequate ventilation.

An approved mask or respirator fitted with an organic vapour cartridge should be worn if the product is used in a poorly ventilated area

Dust mask, P2 particle filter.

#### Hand protection:

Chemical-resistant protective gloves (EN 374).

Suitable materials for short-term contact or splashes (recommended: at least protection index 2, corresponding to > 30 minutes permeation time as per EN 374):

nitrile rubber (NBR; >= 0.4 mm thickness)

Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374):

nitrile rubber (NBR; >= 0.4 mm thickness)

This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced.

## Eye protection:

Safety glasses with sideshields or chemical safety goggles should be worn if there is a risk of splashing. Protective eye equipment should conform to EN166.

#### Skin protection:

Wear suitable protective clothing.

Protective clothing should conform to EN 14605 for liquid splashes or to EN 13982 for dusts.

## Advices to personal protection equipment:

The information provided on personal protective equipment is for guidance purposes only. A full risk assessment should be conducted prior to using this product to determine the appropriate personal protective equipment to suit local conditions. Personal protective equipment should conform to the relevant EN standard.

# **SECTION 9: Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

Physical state solid
Delivery form solid
Colour transparent
Odor Alcoholic

Melting point Not applicable, Product is a liquid

Initial boiling point > 100 °C (> 212 °F) Flammability Not applicable

Explosive limits

Currently under determination
Flash point

Currently under determination
Auto-ignition temperature

Currently under determination

Decomposition temperature Not applicable, Substance/mixture is not self-reactive, no

organic peroxide and does not decompose under foreseen

conditions of use

pH Not applicable, Product is non-soluble (in water).

Viscosity (kinematic) > 20,5 mm2/s

(40 °C (104 °F); )

Solubility (qualitative) Polymerises in presence of water.

(20 °C (68 °F); Solvent: Water)

Solubility (qualitative) Not determined

(Solvent: Acetone)

Partition coefficient: n-octanol/water Not applicable

Mixture

Vapour pressure < 13 mbar

(21 °C (69.8 °F))

Density 1,1 g/cm3 None

(20 °C (68 °F))

Relative vapour density: Not available.

Particle characteristics Currently under determination

## 9.2. Other information

Other information not applicable for this product

# **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

Reacts with oxidants, acids and lyes

#### 10.2. Chemical stability

Stable under recommended storage conditions.

# 10.3. Possibility of hazardous reactions

See section reactivity

#### 10.4. Conditions to avoid

Stable under normal conditions of storage and use.

Excessive heat.

# 10.5. Incompatible materials

See section reactivity.

## 10.6. Hazardous decomposition products

None if used for intended purpose.

# **SECTION 11: Toxicological information**

## General toxicological information:

Prolonged or repeated contact may cause skin irritation.

Prolonged or repeated contact may cause eye irritation.

Methanol released during polymerisation of RTV silicones is toxic by inhalation. It is also highly flammable

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

## Acute oral toxicity:

The mixture is classified based on calculation method referring to the classified substances present in the mixture.

| Hazardous substances      | Value | Value          | Species | Method  |
|---------------------------|-------|----------------|---------|---|
| CAS-No.                   | type  |                |         |   |
| Silane,                   | LD50  | > 2.007 mg/kg  | rat     | OECD Guideline 401 (Acute Oral Toxicity)                |
| dimethoxydimethyl-        |       |                |         |   |
| 1112-39-6                 |       |                |         |   |
| Hexamethyldisiloxane      | LD50  | > 12.000 mg/kg | rat     | not specified   |
| 107-46-0                  |       |                |         |   |
| Hexamethyldisilizane      | LD50  | 851 mg/kg      | rat     | OECD Guideline 401 (Acute Oral Toxicity)                |
| 999-97-3                  |       |                |         |   |
| octamethylcyclotetrasilox | LD50  | > 4.800 mg/kg  | rat     | equivalent or similar to OECD Guideline 401 (Acute Oral |
| ane                       |       |                |         | Toxicity)   |

| Hazardous substances<br>CAS-No.          | Value<br>type | Value                       | Exposure time | Species   | Method  |
|--|---------------|-----------------------------|---------------|---|---|
| Silane, dimethoxydimethyl-<br>1112-39-6  | EC10          | > 100 mg/l                  | 3 h           | activated sludge of a predominantly domestic sewage | OECD Guideline 209<br>(Activated Sludge,<br>Respiration Inhibition Test)          |
| Hexamethyldisiloxane<br>107-46-0         | EC50          | Toxicity > Water solubility | 3 h           | activated sludge, domestic                          | OECD Guideline 209<br>(Activated Sludge,<br>Respiration Inhibition Test)          |
| octamethylcyclotetrasiloxane<br>556-67-2 | EC50          | Toxicity > Water solubility | 3 h           | $\mathcal{E}$                                       | ISO 8192 (Test for<br>Inhibition of Oxygen<br>Consumption by Activated<br>Sludge) |

# 12.2. Persistence and degradability

| Hazardous substances CAS-No.            | Result                     | Test type | Degradability | Exposure time | Method   |
|---|----------------------------|-----------|---------------|---------------|--|
| Silane, dimethoxydimethyl-<br>1112-39-6 | not readily biodegradable. | aerobic   | 0 %           | 28 d          | OECD Guideline 310 (Ready<br>BiodegradabilityCO2 in Sealed<br>Vessels (Headspace Test) |
| Hexamethyldisiloxane<br>107-46-0        | not readily biodegradable. | aerobic   | 2 %           | 28 d          | OECD Guideline 301 C (Ready<br>Biodegradability: Modified MITI<br>Test (I))            |
| Hexamethyldisilizane<br>999-97-3        | not readily biodegradable. | no data   | 15,3 %        | 28 d          | OECD Guideline 301 D (Ready<br>Biodegradability: Closed Bottle<br>Test)                |
| octamethylcyclotetrasiloxane 556-67-2   | not readily biodegradable. | aerobic   | 3,7 %         | 29 d          | OECD Guideline 310 (Ready<br>BiodegradabilityCO2 in Sealed<br>Vessels (Headspace Test) |

# 12.3. Bioaccumulative potential

| Hazardous substances         | Bioconcentratio | Exposure time | Temperature | Species         | Method                         |
|------------------------------|-----------------|---------------|-------------|-----------------|--------------------------------|
| CAS-No.                      | n factor (BCF)  |               |             |                 |                                |
| Hexamethyldisiloxane         | 776 - 2.410     | 70 d          |             | Cyprinus carpio | OECD Guideline 305 C           |
| 107-46-0                     |                 |               |             |                 | (Bioaccumulation: Test for the |
|                              |                 |               |             |                 | Degree of Bioconcentration in  |
|                              |                 |               |             |                 | Fish)                          |
| octamethylcyclotetrasiloxane | 12.400          | 28 d          |             | Pimephales      | EPA OTS 797.1520 (Fish         |
| 556-67-2                     |                 |               |             | promelas        | Bioconcentration Test-Rainbow  |
|                              |                 |               |             |                 | Trout)                         |

#### 12.4. Mobility in soil

| Hazardous substances CAS-No.            | LogPow | Temperature | Method  |
|---|--------|-------------|---|
| Silane, dimethoxydimethyl-<br>1112-39-6 | 2      | 20 °C       | QSAR (Quantitative Structure Activity Relationship) |
| Hexamethyldisiloxane<br>107-46-0        | 5,06   | 20 °C       | other guideline:                                    |
| octamethylcyclotetrasiloxane 556-67-2   | 6,98   | 21,7 °C     | other guideline:                                    |

## 12.5. Results of PBT and vPvB assessment

| Hazardous substances         | PBT / vPvB   |
|------------------------------|--|
| CAS-No.                      |  |
| Hexamethyldisiloxane         | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 107-46-0                     | Bioaccumulative (vPvB) criteria.   |
| Hexamethyldisilizane         | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 999-97-3                     | Bioaccumulative (vPvB) criteria.   |
| octamethylcyclotetrasiloxane | Fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very     |
| 556-67-2                     | Bioaccumulative (vPvB) criteria.   |

## 12.6. Endocrine disrupting properties

not applicable

#### 12.7. Other adverse effects

No data available.

# **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Product disposal:

Do not empty into drains / surface water / ground water.

Dispose of in accordance with local and national regulations.

Disposal of uncleaned packages:

After use, tubes, cartons and bottles containing residual product should be disposed of as chemically contaminated waste in an authorised legal land fill site or incinerated.

#### Waste code

08 04 09\* waste adhesives and sealants containing organic solvents and other dangerous substances

The valid EWC waste code numbers are source-related. The manufacturer is therefore unable to specify EWC waste codes for the articles or products used in the various sectors. The EWC codes listed are intended as a recommendation for users. We will be happy to advise you.

# **SECTION 14: Transport information**

#### 14.1. UN number or ID number

Not hazardous according to RID, ADR, ADN, IMDG, IATA-DGR.

#### 14.2. UN proper shipping name

Not hazardous according to RID, ADR, ADN, IMDG, IATA-DGR.

#### 14.3. Transport hazard class(es)

Not hazardous according to RID, ADR, ADN, IMDG, IATA-DGR.

#### 14.4. Packing group

Not hazardous according to RID, ADR, ADN, IMDG, IATA-DGR.

#### 14.5. **Environmental hazards**

Not hazardous according to RID, ADR, ADN, IMDG, IATA-DGR.

#### 14.6. Special precautions for user

Not hazardous according to RID, ADR, ADN, IMDG, IATA-DGR.

#### 14.7. Maritime transport in bulk according to IMO instruments

not applicable

# **SECTION 15: Regulatory information**

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Ozone Depleting Substance (ODS) (Regulation (EC) No 1005/2009): Prior Informed Consent (PIC) (Regulation (EU) No 649/2012): Persistent organic pollutants (Regulation (EU) 2019/1021):

Not applicable Not applicable Not applicable

VOC content < 5 %

(2010/75/EC)

#### 15.2. Chemical safety assessment

A chemical safety assessment has not been carried out.

## **SECTION 16: Other information**

The labelling of the product is indicated in Section 2. The full text

of all abbreviations indicated by codes in this safety data sheet are as follows:

H225 Highly flammable liquid and vapour.

H226 Flammable liquid and vapour.

H302 Harmful if swallowed.

H311 Toxic in contact with skin.

H317 May cause an allergic skin reaction.

H332 Harmful if inhaled.

H361f Suspected of damaging fertility.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

H411 Toxic to aquatic life with long lasting effects.

H412 Harmful to aquatic life with long lasting effects.

ED: Substance identified as having endocrine disrupting properties

EU OEL: Substance with a Union workplace exposure limit
EU EXPLD 1: Substance listed in Annex I, Reg (EC) No. 2019/1148
EU EXPLD 2 Substance listed in Annex II, Reg (EC) No. 2019/1148
SVHC: Substance of very high concern (REACH Candidate List)
PBT: Substance fulfilling persistent, bioaccumulative and toxic criteria

PBT/vPvB: Substance fulfilling persistent, bioaccumulative and toxic plus very persistent and very

bioaccumulative criteria

vPvB: Substance fulfilling very persistent and very bioaccumulative criteria

#### **Further information:**

This Safety Data Sheet has been produced for sales from Henkel to parties purchasing from Henkel, is based on Regulation (EC) No 1907/2006 and provides information in accordance with applicable regulations of the European Union only. In that respect, no statement, warranty or representation of any kind is given as to compliance with any statutory laws or regulations of any other jurisdiction or territory other than the European Union. When exporting to territories other than the European Union, please consult with the respective Safety Data Sheet of the concerned territory to ensure compliance or liaise with Henkel's Product Safety and Regulatory Affairs Department (SDSinfo.Adhesive@henkel.com) prior to export to other territories than the European Union.

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular properties.

#### Dear Customer,

Henkel is committed to creating a sustainable future by promoting opportunities along the entire value chain. If you would like to contribute by switching from a paper to the electronic version of SDS, please contact the local Customer Service representative. We recommend to use a non-personal email address (e.g. SDS@your\_company.com).

Relevant changes in this safety data sheet are indicated by vertical lines at the left margin in the body of this document. Corresponding text is displayed in a different color on shadowed fields.
