

# Data sheet Lens.

*Part No.: 18-961.2L*

## Technical data

Diameter	13.8 mm
Dimension	Ø 13.8 mm
Lens illumination	illuminative
Lens colour	Red
Lens shape	flush
Lens material	Plastic
Lens optics	translucent
Forward voltage kind of	DC
Forward voltage typ.	2.0 V
Forward current	20 mA
Weight	0.001 kg

### Hints

- Luminosity and wave length variations caused by LED manufacturing processes may cause slight differences regarding the illumination. The customer has to decide what resistor shall be used to the LED
- Red LED Vf = 2.0 V DC, yellow lens with white LED Vf = 3.2 V, green LED Vf = 3.2 V
