

mikroC PRO for 8051

PID: MIKROE-1457

The mikroC PRO for 8051 currently supports 202 MCUs for 8051 and we are constantly adding new ones.

You can be part of the process by letting us know what microcontroller you wish to see supported next, by using our [helpdesk](#) and submitting a ticket.

1-TIME PAYMENT, LIFETIME LICENSE

Pay once and never worry about it again. Once you buy the compiler you are entitled to lifetime free upgrades. Upgrading the compiler takes only a few minutes and a few clicks. We are constantly adding new features to the compiler, you can keep track of what is happening on the [Software Roadmap page](#).

Our support team is always available – you can rely on our help while you are developing. The compiler license guarantees free product lifetime technical support.

1200 LIBRARY FUNCTIONS

mikroC offers a unique mechanism to easily use libraries in your project, just select the libraries you need and they will be instantly available in your code. No need for dozens of #include directives. You can also install and manage third-party libraries using our package manager

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).

and library manager.

Simply select the libraries you need for your project, by checking the box. Or press the “*Check All*” button to include them all.

With more than 1200 library functions you’ll save time, effort and you’ll write better code.

Visit [LibStock](#) and download fully functional and working projects, and install them with a single click.

Specifications

Architecture	8051 (8-bit)
License type	Electronic (virtual),USB Dongle
Programming language	C
Silicon Vendor	Microchip,Silicon Labs
