

Polymer Processing

High Temperature Resistant

FORMULA 14

NON-SILICONE RELEASE AGENT

Formula 14 is a non-silicone based release agent, specially developed for the mould release of thermoplastics which require post mould process treatment (painting, printing, thermo-welding, etc). The active product is based on an edible food oil and may be used for the mould release of toys etc.

Formula 14 has excellent lubricating properties with a temperature resistance of up to 200°C. It produces a high durability film, giving low migration during use and increasing the mould tool working life.

PRODUCT CODES / FILL SIZES

30226 / 400ml

APPLICATIONS

Formula 14 is especially recommended for the de-moulding of plastics (LDPE, HDPE, PP, PVC, PS, POM, PA) which have to be treated after de-moulding.

Formula 14 can be used for the release of products where a food quality product is needed.

DIRECTIONS

- Apply under working conditions on a clean and degreased mould.

TECHNICAL DATA (WITHOUT PROPELLANT)

Density @ 20°C	0.669
Colour	Light Brown
Temperature Resistance	200°C

MATERIALS COMPATIBILITY

OK -
CAUTION -
NOT OK -

STORAGE & SHELF LIFE

The product may be stored at normal ambient temperatures and has a shelf life of not less than 1 year with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flame.

HEALTH AND SAFETY

A separate Safety Data Sheet (SDS) according to EC Regulation 73/404/EEC and 648/2004/EC is available from Ambersil.com or via info.uk@crcind.com
