

INTRODUCTION

This product is a protective case carefully designed for [UNHIKER](#). It is made of silicone material, which provides a comfortable grip and good protection for UNHIKER, reducing the probability of accidental drops and screen damage. With its precise mold design, it fits snugly on UNHIKER, making it easy to install and use. The clear silk screen markings make it easy to identify the interface functions. There are multiple colors to choose from to meet your personalized needs.
