

# ROLINE Smart KVM Extender, USB

<b>Product No.</b>	14.01.3249
<b>Manufacturer</b>	ROLINE
<b>Manufacturer No.</b>	14.01.3249
<b>EAN (single piece)</b>	7611990180028

## Smart combination of KVM Extender (up to 150 m), KVM Switch and PC Share

- Remotely locates the keyboard, mouse and monitor up to 150 m away from a computer
- Connection of the Computer Unit and Station Unit via Cat. 5e TP cable
- Supports USB consoles
- Video compensation can be adjusted by hot key to ensure the optimum signal quality for any length of cable within the limit
- Locates the computer away from your desk and work area, saving you valuable space
- Allows two users to share one computer both in local and remote areas
- Beeps confirmation for key control makes the operation easier and cross-checked
- Easy installation
- Supports standard USB keyboards and mice
- Compatible with XGA, VGA and SVGA system

### Example of use:

ROLINE KVM extension for remote operation of a workplace

The system provides a local, and a remote unit to connect another console. This can be operated via a Cat5 cable with remote VGA and USB control unit.

Up to 150 m away from the PC, the console can be placed in convenient access while the PC is installed themselves in a safe environment.
