Part: PiCube

Description

PiCube is a 4x4x4 LED cube HAT with a 5V DC operating voltage. PiCube, a monochromatic (Red, Blue, Green) LED with 64, is the latest product in the range of technologically advanced devices of SB Components. It is designed to perform incandescent operations with low energy consumption, robust outlook, and easy installation that make people/kids/users learn the effects of LED lights with different patterns of colors via the combination of software and hardware i.e. Raspberry Pi.

Box Content:

- 1 x Cube Base PCB
- 4 x Layer PCB
- 8 x Pillar PCB
- 2 x Male Berg (1 x 20)
- 2 x Female Berg (1 x 20)
- 70 LED's
