

# PB-505A Plus Courseware & Kit

## PB-505ALAB

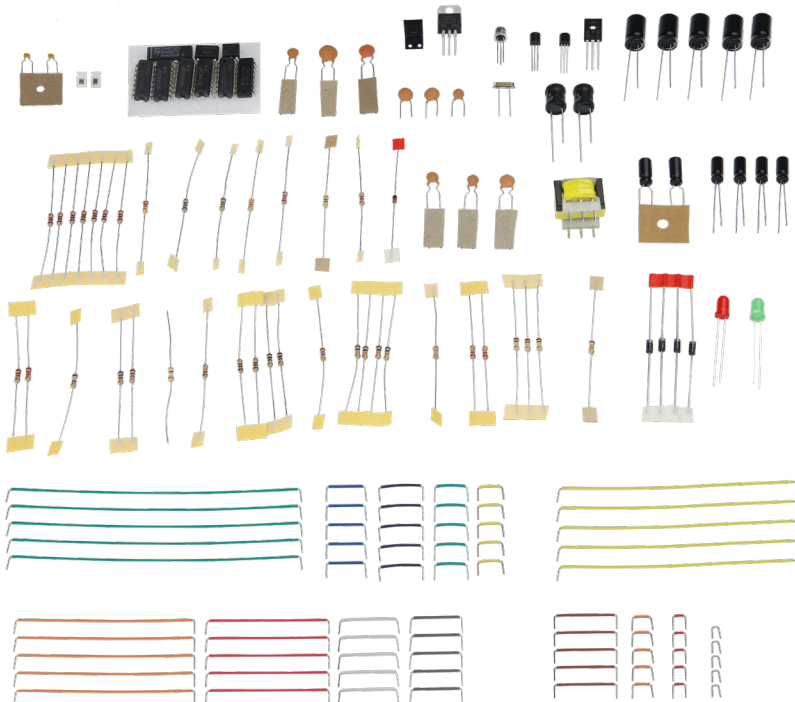

### Description:

The Global Specialties PB-505ALAB is a comprehensive course in analog and digital electronics which utilizes the PB-505A trainer as a base for its experiments. The lab includes the entire Electronics Fundamentals, as well as the Digital Electronics curriculums. Plus there is a kit with over 150 small components needed such as LEDs, resistors, and jumper wire. Students will learn the fundamentals of electricity all the way through combinational logic circuits and microcomputer concepts. Students will also learn by engaging in valuable hands-on breadboarding and experiment verification with the use of the PB-505A trainer.

### Included in LAB:

- PB-505A - Deluxe Circuit Design Trainer
- GSC-2301A - Electronics Fundamentals Student Text
- GSC-2302A - Electronics Fundamentals Instructor's Guide
- GSC-2311A - Electronics Fundamentals Student Lab Manual
- GSC-2311KIT - Electronics Fundamentals Lab Kit
- GSC-2312A - Electronics Fundamentals Student Lab Manual Answer Key/Logic Probe
- GSC-3200 - Digital Electronics Student Text
- GSC-3201 - Digital Electronics Instructor Guide
