

EAN:	4013288229250	Size:	157x12x12 mm
Part number:	05006577001	Weight:	16 g
Article number:	Kraftform Kompakt VDE 3060 iS TiE SB	Country of origin:	CZ
		Customs tariff number:	82054000

Application:Slotted screws

Blade:Reduced blade diameter with integrated protective insulation, low-lying screw and spring elements can be easily reached and operated, individually tested as per IEC 60900

Drive:9 mm hexagonal with insertion bevel

Design:Conical cutting edge, stainless steel, "Take it easy" Tool finder: Colour coding by profile and laser-engraved size indication; with hexagon anti-roll protection against rolling away

Screw stainless steel together with stainless steel!

Solution to the rust problem: screwdriving stainless steel together with stainless steel! Wera stainless steel tools are manufactured out of stainless steel so unsightly rust can be avoided.

Vacuum ice-hardened

The stainless steel tools from Wera are vacuum ice-hardened and have the hardness and strength needed for screw connections. There are no limitations to the industrial applications they are suitable for.

Individually tested

Testing the tool for dielectric strength at 10,000 volt gives the user the peace of mind that their tool has been tested for its most important property, insulation. Wera VDE tools are subjected to this test piece by piece which guarantees safe working at up to 1,000 volt.

Blades for handle

The VDE-insulated Kraftform Kompakt stainless blades are suitable for the 3817 VDE Stainless handle.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Reduced blade diameter for lower-lying screws

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.

“Take it easy”

The Kraftform Kompakt VDE blades are equipped with the "Take it easy" Tool finder. The colour coding by profile and the laser-engraved size indication make it easy to identify the required tool quickly.

Hexagonal anti-roll feature against rolling away

The Kraftform Kompakt blades come with an anti-roll protection. The hexagonal shape hinders the blade from rolling away annoyingly at the workplace.
