

EAN: 4013288229427
Part number: 05006581001
Article number: Kraftform Kompakt VDE 3062 iS TIE SB

Size: 0x0x0 mm
Weight: 0 g
Country of origin: CZ
Customs tariff number: 82054000

Application:Phillips-head screws Phillips-Recess

Blade:Reduced blade diameter with integrated protective insulation, low lying PH screws can be easily reached and operated, individually tested as per IEC 60900

Drive:9 mm hexagonal with insertion bevel

Design:Stainless steel, "Take it easy" Tool finder: Colour coding by profile and laser-engraved size indication

Screw stainless steel together with stainless steel!

Solution to the rust problem: screwdriving stainless steel together with stainless steel! Wera stainless steel tools are manufactured out of stainless steel so unsightly rust can be avoided.

Vacuum ice-hardened

The stainless steel tools from Wera are vacuum ice-hardened and have the hardness and strength needed for screw connections. There are no limitations to the industrial applications they are suitable for.

Individually tested

Our screwdrivers are tested for dielectric strength under a 10,000 volt load to make sure that their most important property, their insulation, has been exhaustively tested. Each individual Wera VDE screwdriver is subjected to this test to guarantee safe working up to 1,000 volts.

Blades for handle

The VDE-insulated Kraftform Kompakt stainless blades are suitable for the 3817 VDE Stainless handle.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Reduced blade diameter for lower-lying screws

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.

“Take it easy” tool finder

The Kraftform Kompakt VDE blades are equipped with the “Take it easy” Tool finder. The colour coding by profile and the laser-engraved size indication make it easy to identify the required tool quickly.

Hexagonal anti-roll feature against rolling away

The Kraftform Kompakt blades come with an anti-roll protection. The hexagonal shape hinders the blade from rolling away annoyingly at the workplace.
